Strarberry Flavour

Get Easy From Allergic Cough With

DEXTROCARE-LS

Levosalbutamol 1mg + Ambroxol 30 mg + Guaiphenesin 50 mcg

Ambroxol :

- Ambroxol belongs to the class of mucolytics that works to thin and lossens phlegm (mucus). By doing this, it allows the mucus to come out while coughing.

Guaiphenesin :

- Guaiphenesin belongs to the group of expectorants that works to reduce the phlegm (mucus) stickiness and allow quick removal of the same from the airways.

Levosalbutamol :

- Levosalbutamol belongs to the class of bronchodilators. It works to relax the muscles of the airway and open the airways to allow the patient to breathe easily.

INDICATION :

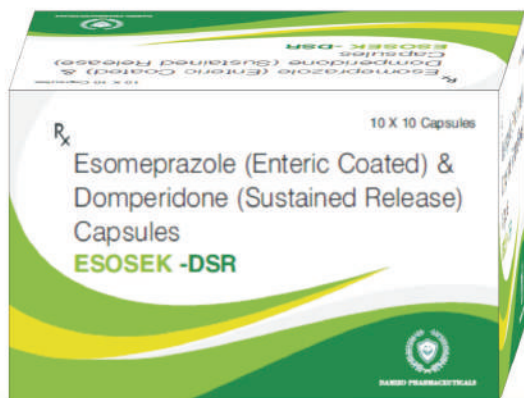

- Cough with**
- MUCUS ● ACUTE RTIS
 - BRONCHITIS
 - BRONCHOSPASM ● COPD

THE COMPLETE COUGH PREPARATION FOR PRODUCTIVE COUGH

Better Relief From Symptoms Better Quality Of Life
